

Veterinary Territory Manager- Permanent full-time

Covering South Central England
Mixed species Territory – Farm/Equine/Companion Animal

Are you a driven, outgoing, and self-motivated individual who enjoys working both individually and as part of a successful team? Then Forte Healthcare could be for you!

For this territory, the ideal candidate will have previous veterinary territory management experience and have existing relationships within this patch. This area has many existing accounts to nurture, however there are further doors to open to maximise this territory. The role will suit a pro-active relationship builder and negotiator, with great organization skills.

The successful candidate will be responsible for growing sales, in line with targets, selling a range of Farm, Equine and Companion Animal pharmaceuticals, as well as generics, and niche products to Vets across the designated territory.

Due to COVID-19 restrictions this is a home-based role currently, but it will be field based once COVID-19 restrictions are lifted. The successful candidate will be based within the territory, or willing to relocate to within the territory. Overnight stays away from home and attendance at weekend exhibitions will be occasionally required.

This is a fantastic opportunity to work for an innovative, progressive, and fast-growing company.

Package:

A competitive basic salary is on offer, along with an open-ended bonus structure, a company car and excellent opportunities for personal development.

For further information or to apply please contact Caroline Coss, National Sales Manager at c.coss@fortehealthcare.com

Must be eligible to work in the UK. *Please note that all applicants must possess a current and valid visa where appointment is made.

Forte Healthcare is an equal opportunities employer.
